MOBILE WEB MODEL
This model is accessible through any standard Mobile HTML browser and the users have access to updated content

The bilingual approach used in ‘Educonnect Language Connects’ makes it a self-paced learning program that helps learners to relate the known (in their own language) to the unknown (in the English language) with ease.

Educonnect Language Connects’, a user-friendly English communication enhancement program.

Every module has four sessions, each focusing on the concept word, its pronunciation, meaning and usage.

Educonnect learing

The content can be updated any time by accessing new content through the Media App Browser. EDUCATOR’S DEVICE The educator’s device is accessible only to the user of the mobile device.

Educonnect Language Connects’ aims to connect people through language.

The bilingual approach diminishes the learner’s apprehension to learn a new language

The accuracy of pronunciation and understanding of the content

The program reaches out to the masses, especially the rural audience, through the use of mobile technology which the target group is already familiar with

The program is an outstanding example of streamlined integration of pedagogy and mobile computing.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
